Hiring Committee
Department of Mathematics
Indiana University
Bloomington, IN

To the Hiring Committee:

My name is Paul Gustafson. I am a graduate student at Texas A&M University, working in the areas of quantum algebra and quantum topology. I expect to receive a Ph.D. from Texas A&M in May 2018, under the direction of Eric Rowell. I would like to apply for a postdoctoral position in your department.

I am particularly interested in working with Noah Snyder and Vladimir Turaev. For example, my thesis involves calculation of mapping class group representations from the Turaev-Viro-Barrett-Westbury TQFT. My work on the classification of modular tensor categories should also be of interest.

With my application, I include the standard AMS cover letter, a curriculum vitae, a research statement, and a teaching statement. I will also have six letters of recommendation sent. There will be research letters from Eric Rowell (rowell@math.tamu.edu), Richard Ng (rng@math.lsu.edu), Zhenghan Wang (zhengwa@math.ucsb.edu), Thomas Kerler (kerler.2@osu.edu), and Dan Licata (dlicata@wesleyan.edu) and a teaching letter from Peter Howard (phoward@math.tamu.edu).

Please let me know if there is anything else I can provide. Thank you in advance for your consideration.

Sincerely yours,
Paul Gustafson
Texas A&M University
