Tables

Let's make a simple table for boolean logic.

X	Y	X AND Y	X OR Y
T	T	T	T
T	F		

Matrices can be built in a similar manner, but you must be in math mode

Lists

We can make an itemized list:

- This list

We can also make enumerated lists:

Definition Blocks

Figure : A right triangle (No need to TeX this! Ola will explain how to use TikZ later)

Advanced Topic- The Columns Environment

The columns environment splits your page up into multiple columns of content.

Columns is also a nice environment for placing equations and graphs side-by-side.
